

Enhancing Worker Safety While Boosting Productivity

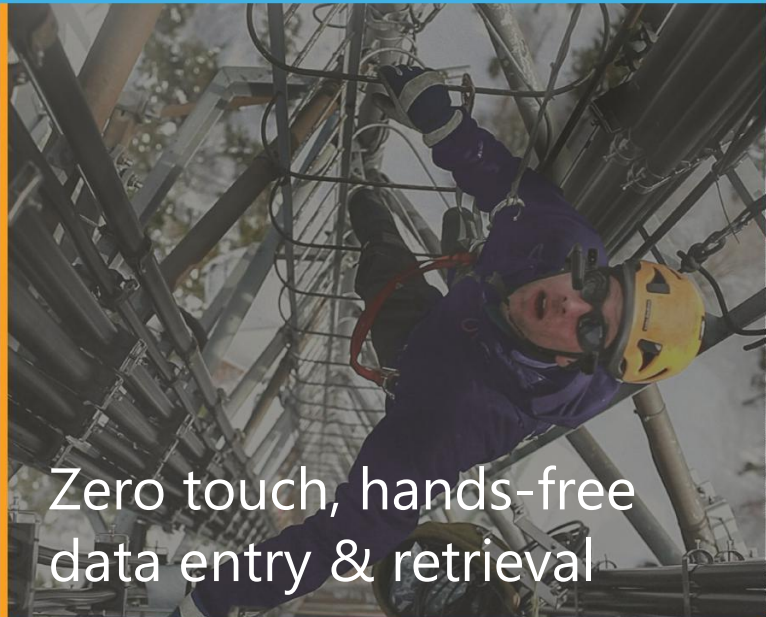

Deployed & in production at Texmark Chemicals

CBT's Connected Worker solutions provide instant access to live video sharing and conferencing software, making critical data and resources available quickly and remotely. Best-in-class hands-free functionality enhances worker safety by allowing technicians to concentrate on vital manual tasks in hazardous environments. In addition, remote mentor functionality empowers inexperienced frontline workers with a direct connection to subject matter experts across the globe, providing the guidance needed to make informed, strategic decisions in less time.

Real-time audio/video sharing & collaboration

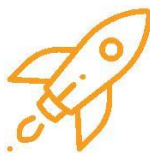

Zero touch, hands-free data entry & retrieval

Expedited Deployment

Purchase & Deploy Remotely Within Days

Comprehensive Team Training

24/7 Support Package

Immediate ROI
